Boasting is not an unmixed evil. It often sounds so fine in the boaster's own ears that he is constrained to make good.

Real poetry and real money rarely exchange courtesies.

If the doctor's bill were always a bill of health it wouldn't be so bad.

Hard work is almost as bad as having nothing to do.

Some people think that they are being dead swell when they buy a nickel's worth for a dollar.

There's a bit of difference between having nothing to do and having to do nothing.

Joy is as illusive as the sheen on the neck of a pike.

THIS IS AN AD FOR THIS CITY

The Appeal advertises to the fact that inquiries come in daily for information as to the ability of merchants and manufacturers of this city to furnish mining machinery and supplies.

Carson City, and the business men of Carson City, are able to supply this sort of merchandise on short notice. It is a fact that this city is as well equipped to handle large orders for machinery and mining supplies as any other on the coast.

One of the best machine shops in the country is in active operation here. The only adequate foundry in the state is here, ready for business, and it can cast light or heavy hardware, and machine parts with equal facility.

When it comes to general repairs on mining machinery and stamp mills, building or assembling of hoists and engines, this shop has few equals on the coast, and none in the state approach it for facilities and adequate tools.

From the heavier work to the lines known as "sheet hardware" the merchants of the city can supply all wants. There are three or four wholesale in Carson City that make a specialty of mining supplies both light and heavy, to say nothing of general camp goods for outfitting a new organization for campaign in the field.

Prospecting parties may be fitted out in Carson City with every thing needed for trips in the desert, and for work on a ledge when one is found, from work, special construction to meet local conditions, food supplies, everything needed in either mining or agricultural exploitation can be had in this city as cheap as in any other city in the state.

Banking facilities in this city are unsurpassed from the fact that two large banks have head quarters here, with branches all over the state, and are prepared to carry and handle balances in almost any amount. The U. S. assay office is here and in case of stress, transfer orders from eastern sub treasuries would be available.

As for transportation and means of access to any and all camps and valleys in the western part of the state, it is proverbial that "all roads lead to Carson". This applies not only to wagon and stage lines, wood trails and mining roads, but railroads as well. Every camp south, now reached by railroad, can be reached easily from this city.

Freight rates and passenger fares are as cheap to and from here as in any part of the state. The service is better than on any of our railroads or stage routes in the state.

The merchants of this city carry large stocks and make close prices.

The machine work may be done at actual cost of material and time employed on the piece of work.

The Appeal will answer any inquiries as to special lines, or special business houses from any person desiring such information.

PROPERTY FOR SALE

BIDS, WANTED—On 33 acres land situated on north Carson street, good fence, frame building and artesian well on property, suitable for city lots, or poultry farm, property known as Carson Guard shooting range.

Also bids wanted on Carson Street Armory Hall property, situated across from railroad passenger station, Carson City, Nevada.

File separately sealed bids on each property with Geo. E. Kitzmeyer, Secretary, on or before July 23rd, 1906 at 8 o'clock p. m. at which time said bids will be opened.

The Armory Association reserves the right to reject any and all bids.

The beef trust manager has invited the agricultural committee of congress to visit Parkington to see for themselves how clean and sweet everything is there, and the reputation of the committee are said to favor the whi-washing junkies.
